

YASSER YASAEI

215, Yale Blvd., SE, Apt 14, Albuquerque, NM, 87106
(505) 450-7846, yasaiei.yasser@gmail.com

SUMMARY

- ▷ Pursuing an interdisciplinary position in **Data Science** and **Dynamical Systems Theory**
- ▷ **Systems & Control** expert with extensive experience in **Statistical/Machine Learning**
- ▷ Technical expertise in **Model Predictive Control**, a.k.a. embedded/real-time optimization
- ▷ Acquired 8 years experience in Control Systems, 3 years in applied **Convex Optimization**
- ▷ Designed a novel real-time control platform for **Microgrids** to optimally integrate distributed energy resources

EDUCATION

- ▽ PHD - SYSTEMS AND CONTROL Expected: MAR. 2016
 - ▷ Department of Electrical and Computer Engineering GPA: 3.81/4
 - ▷ University of New Mexico, Albuquerque, NM, USA Advisor: Prof. ANDREA MAMMOLI
 - ▷ Dissertation topic: Statistical Behavior of Distributed Microgrids with Cascading Model Predictive Control
- ▽ M.Sc. & B.Sc. - SYSTEMS AND CONTROL DEC. 2008
 - ▷ Department of Electrical Engineering GPA: 3.45/4
 - ▷ Sharif University of Technology, Tehran, Tehran, Iran Advisor: Prof. MASOUD KARIMI
 - ▷ Thesis topic: Analysis and Control Design for TCSC and PSS in an SMIB System Using Hopf Bifurcation

TECHNICAL SKILLS

- | | |
|--|---|
| Algorithms
&
Applications | <ul style="list-style-type: none">▽ Designed a novel recursive dynamic programming procedure that optimizes the integration of distributed energy resources into a microgrid<ul style="list-style-type: none">▷ Deployed BRANCH AND BOUND heuristic method for optimizing operation schedules▷ Formulated DISCIPLINED CONVEX PROGRAMMING problems for real-time control▷ Designed appropriate causal time filters to reduce computational costs▽ Obtained practical experience in LINUX, where<ul style="list-style-type: none">▷ Deployed GNU PARALLEL PROGRAMMING application to execute hundreds of simulations simultaneously remotely on Linux-running high performance servers |
| Programming
Languages | <ul style="list-style-type: none">▷ Mastered MATLAB and PYTHON; implemented PhD dissertation level algorithms▷ Course-based experiences in C++ and R |

PROFESSIONAL EXPERIENCE

- | | |
|-----------------------------------|---|
| Research
Assistantship | <ul style="list-style-type: none">▽ CENTER FOR EMERGING ENERGY TECHNOLOGIES
Albuquerque, NM, USA JAN. 2013 - PRESENT<ul style="list-style-type: none">▷ Conducted research on hierarchical cascading model predictive control mechanism to leverage distributed energy resources in decentralized power systems▷ Collaborated on design of a novel fault detection mechanism for automated building ventilation systems▷ Involved in development of a new probabilistic framework for characterization of precursors to WMD-induced cascading failures in the electric-cyber infrastructure |
|-----------------------------------|---|

PROFESSIONAL EXPERIENCE - cont'd.

Programming Staff	▽ TEHRAN PARSEH CORPORATION Tehran, Tehran, Iran ▷ Managed programming of an LCD screen for digital audio broadcasting receiver	SEP. 2006 - JAN. 2007
-------------------	---	-----------------------

TEACHING & OTHER PROFESSIONAL EXPERIENCE

Teaching Assistantship	▽ University of New Mexico Albuquerque, NM, USA ▷ Circuits Analysis I, Introduction to Communication Systems, Introduction to Electrical Engineering	JAN. 2011 - DEC. 2012
	▽ Sharif University of Technology Tehran, Tehran, Iran ▷ Linear Control Theory, Nonlinear Control Systems	SEP. 2006 - DEC. 2008
Project Assistantship	▽ SHARIF UNIVERSITY OF TECHNOLOGY Tehran, Tehran, Iran ▷ Implemented an extra precise compass to detect north direction in a navigation system using Global Positioning System (GPS)	SEP. 2006 - DEC. 2008

HONORS AND AWARDS

- ▷ Ranked 2nd among 15 M.Sc. students of electrical engineering, systems and control track, Sharif University of Technology, 2008
- ▷ Ranked 29th among more than 300,000 students in national entrance exam of universities in Iran, 2000

PUBLICATION
